We Pay Ocean Freight and Duty ALSO CASES AND PACKING

Remember This, in Comparing Dutch Bulb Prices:

When you buy from us, you are not asked to pay, on top of invoice prices, cash on delivery to cover substantial charges for ocean freight, duty, and other added expenses. We pay all these items and while they are covered by our prices, your share is much reduced by savings due to large volume handling.

Dutch Bulb Crops

Our Dutch bulbs have been bought from the growers of proved reliability from whom we purchased for many years prior to the war. By placing one large order on strict specifications, we are assured of correct grading, varieties true to name, and bulbs of top quality. The Dutch crop was not up to expectations, and as this catalogue goes to press prices are rising. Additional shipments may be difficult to get, so early ordering is strongly advised, if you would be sure of your supply of tulips and hyacinths.

Hardy Narcissi Still Short

Domestic narcissus production in Oregon and Washington continues on the short side, with prices a little higher than last year.

This beautiful display box, with 500 First Size May-flowering tulips, 50 each of ten named varieties, separately bagged, \$30.00

We use **FIRST SIZE BULBS**, the size which sells best over the counter. The 10 named varieties (50 each) of good named varieties. The price to you is \$30.00 for the box and 500 bulbs of 10 named varieties. You retail them for \$1.50 a dozen, or more, because the selection is worth more, doubling your money. Each variety is packed 50 in a bag labeled with its name. You empty one bag into a compartment, and refill in the same manner when it is empty. This prevents mixtures and loss of bulbs. After the display box and first collection have been bought, refill orders will be accepted for \$29.50 for 500 bulbs, 50 each of 10 varieties, in bags of 50; or \$58.00 for 1,000 bulbs, 100 each of ten varieties. Colored pictures are provided to paste on the compartments. This box keeps the bulbs in the open air, thus preventing bacterial rot which comes when they are sealed in cartons. The named varieties are kept apart without mixing, which adds greatly to their value. Varieties Subject to Change Without Notice.

Hardy Narcissi

As this catalogue goes to press we hold more orders for narcissus than we have bulbs in sight, so we ask those who are still in the market to write for varieties and prices. Prompt reply will be given.

Special Mixture, Garden Varieties for Resale. 100, \$6.00; 1000, \$55.00.

ONE of our representatives makes an inspection each season when the bulbs are in bloom and again after the bulbs have been lifted and placed in trays in the warehouses. Therefore our customers are assured of the best quality.

Quality of our stock has reached perfection through long study and adoption of the latest methods of culture.

Our bulbs are grown in Oregon, where narcissi bulbs grow best. All our stock has come from the same source in the last six years. The most modern implements are used so that bruising and disease are reduced to minimum. After digging, our bulbs are stored in temperatures that have been found most satisfactory by eminent English and Dutch experimenters. This temperature treatment hastens the flowering period and keeps the bulbs firm.

American grown narcissi are now not only grown as well as European, but they travel a shorter distance to you, minimizing the risk of heating and bruising.

A good share of our supply will come from our own farms in Oregon and Washington.

Vaughan's American Grown Lily Bulbs

CROFT LILIES

The crop this year was much greater than last, and each year in the future, we have reason to expect, production will pyramid, so that it will not be long before the florists of our country have an ample supply of better bulbs than were enjoyed before the war.

Vaughan's Seed Store has been in the forefront of American lily production for many years, and has contributed to the improvement of growing and handling methods, to which this new industry owes its success.

SHANGRI-LA LILIES

Can be obtained only from Vaughan's Seed Store.

They come to you with live roots like Croft lilies from the Pacific coast.

Accurately checked scientific tests have shown that they produce twice the bud count of ordinary rootless Creole bulbs of comparable size, because they start growing without check, or taking time to produce new roots.

Culture is like other Creoles, growing cool to keep down their height, and for best quality. The variety is naturally early.

All Shangri-La Bulbs are exceptionally high crowned.

The large sized bulbs, above 10 inches, are double crowned or better, and will produce a corresponding number of stems.

All bulbs will be shipped to you from cold storage after treatment to facilitate forcing. In ordering state whether you want bloom for January, Easter or later, so we can ship at the proper time, from Oct. 1 to May 1. Give us early orders, as the treatment in storage differs according to the forcing date.

VAUGHAN'S CROFT LILIES

Narcissus Paper White

From the Finest Crop Harvested in Florida
CROP IS VERY SHORT OF LARGE BULBS

All our bulbs are grown from stock that originally came from the same Frenchman who supplied us before importation of foreign bulbs was prohibited. We caution florists against buying cheap bulbs of Paper Whites. You might get bulbs which have been left in the ground two or more years, and which show double crowns. Such bulbs will produce plenty of foliage, but will lack flowers.

The fields from which our bulbs come were inspected by our bulb man at flowering time, to insure true type; and a further inspection was made at harvesting time. The stocks have all been tested for forcing in soil and in water and the reports from such tests are that while flowering somewhat later than imported bulbs, results are as good.

HYACINTHS QUEEN OF PINKS AND GRAND MAITRE

RANUNCULUS

With available flowers for early spring sharply reduced by the effects of war, the problem of every greenhouse owner is: What shall I plant in the benches usually devoted to material shut off by war?

Ranunculus offer an immediate answer to this problem. No other flowers available to the florist can produce such a riot of color. They make an immediate hit with the public, as every flower show proves. Market records show that supplies in the past have sold out quickly at good prices, and next spring they will have far less competition.

The important thing is to grow a good strain, and Vaughan's exclusive Victoria Hybrids have no rivals in abundant bloom, percentage of doubles, strong stems, and size of flowers. The color range embraces pink, yellow, orange, brilliant scarlet, vivid apricot and innumerable tints of these colors.

Culture is simple, and full directions will be supplied on request.

One of the most showy flowers, good for cut flowers. They thrive in any soil except a very heavy clay. Set 10 inches apart, about ½ inch deep. Sunny location, plenty of moisture. **Special Mixed**, number one bulbs, per 100, \$3.75; per 1,000, \$32.50.

Anemone St. Brigid Irish Champions. The largest flowered strain of Anemones ever offered in the United States. Large, brilliant flowers in a wide variety of colors, over 90% full double. Number one bulbs, per 100, \$4.00; per 1,000, \$36.00.

BRODIAEAS

Capitata. The California Hyacinth, has slender stems, 6 to 12-inch, high capped with a close cluster of violet blue flowers. Flowers hold up well, so should be good for Florist's use. 100, \$3.75; 1,000, \$32.50.

CHIONODOXA (Glory of the Snow)

These are among the most beautiful of our spring-flowering bulbs, coming into bloom soon after the snow is gone. Grows well in any good garden soil, and when once planted requires no further care. Looks best when planted in lines or clumps.

Lucillae. Flowers of a brilliant sky-blue color with white center. Per 100, \$2.50; per 1,000 \$20.00.

White Calla

(Aethiopica) Ready in September

Callas being natives of swampy regions grow to best advantage where there is an abundance of moisture, and are therefore very difficult to handle in the curing. Some growers practice **premature cutting off the tops**, expose bulbs to the sun, in order to make early shipment.

Our stock is **thoroughly cured in the ground and dried carefully** before they are packed. This means **later delivery** but better results can be obtained from such bulbs.

We caution forcers of Callas to water this stock sparingly after planting because Calla bulbs store up considerable moisture.

ANNUAL FLOWER SEEDS FOR FALL SOWING

- | | |
|-------------------------------------|-------------------------|
| Antirrhinum | Dianthus (Annual pinks) |
| Calendula | Gilia Capitata |
| Calliopsis | Gypsophila |
| Candytuft | Hunnemannia |
| Centaurea Cyanus | Larkspur |
| Cosmos | Mignonette |
| Cynoglossum (Chinese Forget-me-not) | Poppy Shirley |

The earliness of bloom, and the economy of growing compared to plants started in the Greenhouse, makes the sowing of certain annuals in the Fall a good gamble for Florists who can use summer cut flowers. Larkspur is a particularly good item for this culture. This method avoids transplanting, which is often difficult with Larkspur. Early plants grow better due to cooler weather, and the early flowers do not shatter as easily as those blooming during the hot spells.

When you sow seeds of annuals in Fall, you imitate Nature's method. Practically all hardy annuals will produce stronger, sturdier plants with earlier bloom by this method. Do not be in too much of a hurry to sow. The ideal time is just before the ground freezes for winter. November 15th is early enough in normal seasons in the vicinity of Chicago and New York. If the ground has been prepared in advance, sowings can also be made during winter thaws. A cold frame makes a good place to grow.

A fine seed bed is desirable. No covering of any kind is needed unless there is danger of washing or from birds, in which case a light, loose covering can be used. Plant at half the depth used when sowing seed in Spring. Broadcast all small seed. South of the Mason-Dixon line, sowing should be delayed until the late February and early March thaws.

Vaughan's Peonies

5 of a Kind at the 10 Rate—25 of a Kind at the 100 Rate

Prices are F. O. B. Western Springs, Ill., packing charges to be added at cost.

WE HAVE an exceptionally large stock of our own growing. Strictly true to name, all in strong divisions, with from 3 to 5 eyes each.

The figures preceding the varieties are the rating given to them by the American Peony Society.

Peonies in established plantings need to be fed each Spring. A top-dressing of a balanced plant food well worked in will do wonders, but it should be applied early.

Demand is expected to continue high for years, as new homes are built and planted. This is a business which belongs to the florists, and Vaughan's Seeds a line which he can recommend. OUR RED, WHITE AND BLUE RACK

Red, White and Blue Display

We shall continue to use for 1946 the strikingly beautiful Victory Garden Display Rack designed in our national colors. The top panel will be red, the lower one white, and the sides and bottom will be blue. It makes a brilliant eye-catching combination and will give your store a patriotic atmosphere.

Design and construction of the rack will follow the model which has proved so satisfactory last year.

The illustration shows how it holds each variety where the customer can see it.

The dimensions of this rack are: 30 inches wide, 15 inches deep, on the floor. The height is 55 inches, nicely calculated to combine maximum visibility of packets, and convenient self-service, while at the same time it does not obstruct a clear view of the store, which many feel is important.

Your new rack will be light, yet strong, easily moved about. It is made in the modern manner, of heavy matboard, and comes to you brand new. One rack will hold \$100 worth of packets.

Our New Packets. All flower seed packets of 1946 will be $3\frac{1}{4}$ by $4\frac{1}{2}$ inches, same size as vegetable packets, and all racks will be interchangeable, serving for either flower or vegetable seed.

Brilliantly Colored Posters and Streamers. Color sells everything now-a-days and nowhere is it more necessary than in selling the garden. Vaughan's posters are modern, artistic, brilliant. They will dress up your store and give it the atmosphere of spring, helping business in every line.
